INDIAN OUTBREAK.

One Will Surely Occur in the Spring.

WAR DANCE ALREADY BEGUN.

The Recent Killing of the Four Cowboys Is Only the Beginning—The Settlers Alarmed and Want More Troops on the Pine Ridge Reservation—A Dying Indian Confesses to Being One of the Principals in the Recent Tragedy.

PINE RIDGE AGENCY, S. D., Feb. 8.—It is now definitely settled that only two of the four white men murdered belong to Humphrey camp. They were Rodney Royce, of Wisconsin, and Emanuel Bennett, of Breckinridge. The two strangers were James Bacon and William Kelly, two boys, aged thirteen and sixteen years respectively. Every particular obtainable points to a premeditated murder.

Young-Man-Afraid-of-His-Horses, and He-Dog, son-in-law of Red Cloud, came to the agency Monday, and asked for authority to arrest the two escaped murderers and bring Two Strikes, who is mortally wounded, to the agency. He-Dog promises that he will arrest and bring every one to the agency who participated in the murder. The agent would not give his consent to this arrangement until he finds that the police are unable to make the arrest.

Policeman Bear-That-Runs-in-the-Woods brought in yesterday one of Two Strikes' sons, who is one of the murderers of the Humphrey camp cowboys. He is slowly dying of his wounds. He confessed that it was agreed among the Indians to go to the beef camp and kill the cowboys. They slipped into the dug-out while the men were asleep and each selected a victim. At a given signal, a cough, each Indian emptied his revolver into the body of his victim. The cook was not killed at the first fire, and upon his attempting to crawl under the bed was shot again in the head. So close was the range that each victim was terribly powder burned. The dying Indian says the men were killed because they were white.

The bodies of the victims were brought here yesterday.

Dr. Eastman, the agency doctor, is a full-blooded Sioux, and is better acquainted with the movements of his tribe than anybody at the agency. In regard to the last affair, he says that it will lead to an outbreak without doubt. The Indians since the war of 1890 have been brooding over the affair and are dissatisfied. They get enough to eat and wear, but they do not like the action of the government toward the hostiles. These Indians after the war were pampered and shown attention, while the friendlies were not even thanked for the part they played in the suppression of the revolt.

WARRIORS ORGANIZING.

Red Cloud Said to Be a Leader in the Movement.

CHICAGO, Feb. 8.—Miss C. F. Sickles has returned from her journey in the Indian Territory where she went as the representative of the council of administration of the world's fair to visit the peaceable tribes and awaken among them an interest in the world's fair. She says all the Indians are anxious to come to the fair, and to make an exhibit which will show their desire for progress.

Speaking of the Pine Ridge trouble she says: "Let me tell you that despite the telegraphic reports to the contrary, the event of a few days ago is only the prelude to an outbreak which will have far-reaching results. The warriors of the Ridge are stealthily and systematically organizing under such men as Red Cloud, who, while keeping their person far from the actual scene of action, are stirring up the feeling of their followers with a view to bringing about bloodshed."

Miss Sickles says the disaffection is due in a measure to the dishonesty of certain officials against whom some sensational charges will be made in the near future.

Dancing All Over the Reservation.

SIOUX CITY, Ia., Feb. 8.—A United States officer from the Black Hills country, who is in the city, says the reports of the late troubles at Pine Ridge have been edited and colored by Agent Brown to suit his purposes, and that the trouble is really very serious. Dancing is going on all over the reservation, he says, and the four cowboys were killed as the result of it. The cold weather alone prevents an outbreak, which is almost certain to occur in the spring. The settlers are alarmed and want troops placed on the reservation at once.

White House Again Open.

WASHINGTON, Feb. 8.—The placards bearing the word "closed," which have been displayed on the front door of the White House since the day before Christmas, when little Martha Harrison, the president's grandchild, was stricken with scarlatina, were removed yesterday, and the public part of the house once more open to visitors. The president will now resume his tri-weekly receptions to the public.

Four Robbers Arrested.

LIMA, O., Feb. 8.—The police unearthed a systematic robbery of post-office boxes which has been in progress for some time by the arrest of six boys, one of whom has confessed. They have been robbing the private boxes of the different banks and made many rich hauls.

Montreal, Feb. 8.—Two men were killed outright and three seriously injured yesterday afternoon by falling walls at the ruins of the Rolland fire of Friday morning.

SENATOR ELECTED.

Nebraska Sends a Populist to the Upper House of Congress.

LINCOLN, Neb., Feb. 8.—Judge W. V. Allen, Populist, was elected United States senator yesterday morning, receiving 70 votes, four more than necessary to elect.

The Republican caucus Monday night substituted A. S. Paddock for John M. Thurston as their candidate, and in yesterday's joint session every Republican except two voted for him, giving him 59 votes.

All the Democrats voted solidly for Allen and each man was cheered heartily by the Independents as he cast his vote. Only one senator, Colonel North, explained his vote. When the result of the ballot had been declared Senator Taft, Republican, moved to adjourn. This was taken as an insult to the senator-elect and Taft was roundly hissed. Church Howe, Republican, sprang to his feet and made a strong speech in favor of courtesy to Allen and honor of the state. A committee was appointed to escort Allen to the hall. He came and made a brief speech, in which he promised conservative action. Further than this he made no promise. All the Democrats were congratulated by the Independents as soon as the vote was announced.

William Vincent Allen was born at Midway, Madison county, O., Jan. 28, 1847. He is a man of commanding presence and much magnetism. In 1856 he moved from Ohio to Iowa, and at the age of fifteen years enlisted from the latter state in the war of the rebellion. He carried a musket, which was nearly as big as himself, for three years. He then returned to Iowa and studied law with L. L. Ainsworth, of West Union. Nine years ago he came to Nebraska, locating at Madison, Madison county, his present home. He is at present judge of the Ninth judicial district.

BURGLARS KILL BABES.

They Leave a Window Open and the Little Ones Freeze to Death.

KANSAS CITY, Feb. 8.—Martin Baker and his wife live at 726 South Ninth street. Five days ago Mrs. Baker gave birth to twins. John Baker, a brother, rooms with them.

Monday night John, who sleeps in an upper room, grew thirsty. He came down stairs to get a drink of water and found the house very cold. He went into his brother's room and found Martin and his wife in a stupor. After much difficulty he aroused them. Burglars had been in the house, chloroformed husband and wife, and in departing left a window open. The two little babies were frozen to death.

World's Fair Buildings Are Leaky.

CHICAGO, Feb. 8.—From present indications the world's fair buildings will be just about as water proof as the Democratic wigwam was last summer.

The roofs of machinery hall and the agricultural building are especially bad. In the latter the water did not trickle through Monday, but absolutely poured and stood two inches deep on the floor.

The superintendent says the roofs will

become water tight by the 1st of May, but prior to that time exhibitors will suffer if they attempt to put their displays in order.

Oil Pump Fatally Beaten.

LIMA, O., Feb. 8.—Yesterday morning William Reed was found in an oil well pumphouse at Manhattan with his skull crushed. Reed was an oil well pumper, and some time during the night was beaten into insensibility with a wrench. His skull was horribly crushed. He was alive when found, but can not live. No cause can be assigned for the crime. His home is in this city and he has been working for the Manhattan Oil company.

Cleveland at Home.

LAKEWOOD, N. J., Feb. 8.—Mr. and Mrs. Cleveland returned from New York at 5:10 p. m., where they had been attending the funeral of Mrs. Whitney. Mr. Cleveland's program for the remainder of the week is to remain quietly at home in order to dispose of several important matters which have been awaiting his attention. No callers are expected at present as Mr. Cleveland does not wish to be interrupted.

Sailors and Ship in Peril.

HALIFAX, N. S., Feb. 8.—The brigantine Edith, owned by John Taylor & Company, from Demarra for Halifax with a cargo of molasses and sugar, is ashore off Fax Point, ten miles east of this port. The crew, consisting of Captain Walter Rowe and seven men, are still on the vessel. The sea is running high, making it impossible for the life boat to live in the surf. It is feared that all hands will be lost.

Big Cave-In.

ISHPEMING, Mich., Feb. 8.—A strip of ground 50 by 75 feet, near the incline shaft of the Cleveland Iron company's mine, dropped seventy-five feet. Workmen who had been blasting, thirty-five in number, noticed a constant fall of ground and quit work, fearing a cave-in. They had scarcely left when a cave-in resulted. It is feared five men are entombed, as that number are missing.

Struck by a Train.

HURON, O., Feb. 8.—About midnight Monday night John Huff, a farmer, while driving across the Lake Shore railroad three miles west of this place, was struck by an eastbound freight, killing the horse, the vehicle being broken into small pieces. Huff was thrown forty feet, receiving no further injuries than severe bruises.

Smallpox Epidemic.

AKRON, O., Feb. 8.—Two new cases of smallpox were reported yesterday. The victims are Arthur Archer and John McDonald, of Bellows street. They bring the number reported since Dec. 29 to fifty. Of these ten have died.

No Dangers of a Flood.

PITTSBURG, Feb. 8.—At midnight the river was twenty-three feet and stationary. There is no danger of a future rise. Along the banks of the Allegheny many cellars were flooded and people had to move out of their houses. No serious damage was done, and it is expected the river will now fall as the weather is cold.

SHORT CONFERENCE.

An Hour's Talk on Hawaiian Annexation.

NOTHING YET ACCOMPLISHED.

The Commissioners Seem Satisfied with the Prospects and Are Awaiting the Arrival of the Next Steamer from Honolulu—The Subject Discussed at a Cabinet Meeting.

WASHINGTON, Feb. 8.—The Hawaiian annexation commissioners and Dr. Mott Smith, the Hawaiian minister, had another interview yesterday with Secretary Foster at the state department. As was the case with the previous two interviews, this was entirely informal, being confined to an interchange of unofficial views upon the subject of annexing the Hawaiian islands to the United States.

The business of the day was the informal presentation by State Secretary Foster of the United States government's side of the case. This had been prepared by the president, State Secretary Foster, Secretary Tracy and Attorney General Miller at an informal cabinet meeting. There was an informal discussion of the case for an hour and the conference adjourned subject to the call of State Secretary Foster.

The business of the day was the informal presentation by State Secretary Foster of the United States government's side of the case. This had been prepared by the president, State Secretary Foster, Secretary Tracy and Attorney General Miller at an informal cabinet meeting. There was an informal discussion of the case for an hour and the conference adjourned subject to the call of State Secretary Foster.

Nothing was said about the time when the commissioners shall be received by President Harrison and thus formally recognized, and the determination of this date will depend upon the nature of the advices from Honolulu, which are expected to reach San Francisco today on the Oceanic steamship.

After the conference the commissioners returned to their hotel. They all seemed much pleased with the turn of affairs and the outlook and each and all said everything was going satisfactory and with as much speed as they could expect. One of them said: "The United States is all right in the case. Everything looks most encouraging."

Mr. Castle, in talking on the subject, said: "There is a point in this matter which I think can be discussed without betraying diplomatic secrecy, and that is the position the United States holds toward Hawaii. It was the United States that rescued the islands from barbaric state. The American missionaries were the ones who started and accomplished this and over since American interests have fostered and cared for the industries and people of the islands. Had it not been for the American protection the islands would have been absorbed long ago by England or France.

"The people have come to look upon the United States as their natural guardian and protector, and by its influence has made them what they are. Now that we are in a tight place and appeal for aid to the United States it is not only the right but the duty of the United States to listen to us and to do as we wish. Should they refuse this request, the islands are lost. But I think the United States government sees the position and the end of these negotiations will be satisfactory. We can not expect haste in the matter; everything must be done calmly and diplomatically, but so far everything that has been done is entirely pleasing to the commission.

The commissioners will now have a few days of rest. The secretary of state told them that there would be no meeting Wednesday, and they have made arrangements to go to the Capitol and see the counting of the electoral vote and see the senate and house in joint session proclaim the election of a president and vice president of the United States, who may also be, from present indications, the next president and vice president of the Hawaiian islands.

After the commissioners withdrew the secretary of state went to the cabinet meeting. Here he detailed the proceedings of the morning's conference. All the members of the cabinet were present at the meeting except Secretary Noble. There was no change in the situation of Hawaiian affairs as far as the cabinet is concerned. All of the members have expressed their views upon the general subject of annexing Hawaii, and, until the president and secretary of state conclude their negotiations with the commissioners or decide that negotiations can not be formally entered upon, of course, there will be nothing for the cabinet, as a body, to consider.

MIGHT HAVE BEEN RESCUED.

Five of the Crew of a Bark Ashore Lost While Trying to Land.

NEW YORK, Feb. 8.—Superintendent Havens, of the Fourth district life-saving service at Point Pleasant, reports that the Norwegian bark Alice, Captain Jacobson, from Dunkirk Dec. 21, for New York, in ballast, came ashore at 9:30 last night at Long Beach (N. J.) life-saving station.

Before an attempt was made to rescue the crew by the life-saving station, five of the crew of the bark attempted to land in their own boat, but it was capsized in the surf and all were drowned. The life station finally succeeded in getting a life line attached to the bark, and by use of the breeches buoy rescued the eleven remaining members of the crew, including the captain. The bark's foremast is gone, and she will probably prove a total loss.

No Dangers of a Flood.

PITTSBURG, Feb. 8.—At midnight the river was twenty-three feet and stationary. There is no danger of a future rise. Along the banks of the Allegheny many cellars were flooded and people had to move out of their houses. No serious damage was done, and it is expected the river will now fall as the weather is cold.

THE PARIS LYNCHING.

The Governor of Texas Preparing a Message for the Legislature.

AUSTIN, Feb. 8.—A message concerning the burning of the negro, Smith, at Paris, has been prepared by Governor Hogg for submission to the legislature, in which he says:

"It becomes my painful duty to emphasize to you the necessity of taking some steps to prevent mob violence in Texas. Brushing all sentiment, which should never accompany punishment for crime, the crime committed at Paris is a disgrace to this state; its atrocity, inhumanity and sickening effect on the people at large can not be obscured by reference to the previous act of the culprit himself in brutality taking the life of an innocent child. For his deed, the death penalty awaited him under the laws. The imputation that he could not have been legally executed in any court in this state is a slander upon the integrity of every citizen. To contend that his executioners who purposely murdered him can neither be indicted nor tried in the county where that crime was committed is a pretense and a mockery.

"So the condition exists in our state that while one man can be convicted for murder, a hundred men who publicly commit murder can not be. The laws therefore, without further legislation may be held in defiance in any community where the forces are strong enough to overawe the local officers and set aside the legal machinery of justice. Our constitution is not so hidebound that this condition must continue. Will the legislature stand by and let this condition remain undisturbed, unchanged, any longer? I hope not. There is no higher obligation resting on the legislative department than to have the constitutional guarantees for protection of life, liberty and prosperity respected and obeyed. If taxation becomes necessary to raise funds by which this may be done, I advise your honorable bodies to lay it on and make the people pay it to the full extent necessary."

Senate and House.

Political Debate in the Senate While the House Gets Down to Business.

WASHINGTON, Feb. 8.—Senator Chandler, Republican, of New Haven, managed to give a political twist to the debate in the senate yesterday on the automatic coupler bill. He brought up a resolution in the national Democratic platform which denounced the Republican party and the Republican senate for not having provided legislation for the protection of railroad employees, and insisted that the position of so many Democratic senators against the bill was inconsistent with their party fealty.

He twisted them with the fact that only eleven of them had voted Monday to take up the bill for the repeal of the Sherman act, knowing the declaration of the national Democratic convention on the subject of silver, and knowing the entreaties of the president-elect to have the Sherman act repealed before the 4th of March. And he predicted that the course of Democratic senators in the next congress on the subject of tariff would be equally at variance with their party platform.

Mr. Wolcott, Republican, of Colorado, while arguing against the automatic coupler bill, said that no other senator than Chandler could have found a political advantage in it. No action was taken on the bill.

In marked contrast with the interest taken in the proceedings of the house Monday was the lack of attention paid to the routine business of yesterday. And yet the house Monday accomplished nothing. Yesterday it made fair progress with one of the greatest appropriation bills—the legislative bill which appropriates upward of \$21,500,000. Aside from a review of the condition of the treasury by Messrs. Dingley and Dockery, divergent views, and an attack on the civil service law by Mr. Armond, the proceedings were uninteresting.

On the 4th of March, the bill was introduced.

Another Similar Case.

LUDINGTON, Mich., Feb. 8.—Captain Wilson, of the life saving crew at Point Sable, came to this city yesterday and reported the burning of the house of Ernest Bockus, a resident of Lincoln, Sunday night. In the fire one of the Bockus boys was roasted to death, while another had a narrow escape from a like fate. The children had been left alone by their parents.

DESTROYED BY FIRE.

Disastrous Conflagration in Boston.

A \$300,000 Loss Sustained.

A Dozen Firms Burned Out in the Shoe District on Congress Street—Two Fatal Fires in Michigan—Three Men Perish in Burning Car—Other Losses by Fire.

BOSTON, Feb. 8.—The shoe district of Boston was visited by a disastrous fire last night, the scene of the conflagration being the so-called "Green building," 275 to 285 Congress street. The total loss is estimated at upwards of \$300,000.

The building, which was of brick six stories in height, was occupied by beet and shoe manufacturers and machinery warehouse and contained large stocks of goods upon every floor. A. W. Clapp & Company, John Russell & Company, George Daniels & Company, Simon, Hatch & Whitten, woolens; the Winthrop Square clothing manufacturers, the Stearn's Shoe company, C. P. Riley & Company, machinery, Hutchins & Littlefield and Haynes Sparrow & Company are the principal losers.

The damage to the building, which is owned by John Dickie, of Philadelphia, will be about \$7,000. How

WEATHER INDICATIONS.

Tennessee and Kentucky—Fair; northerly winds, becoming variable; slowly rising temperature in central and western portions Wednesday afternoon.

It is said there are more than thirty book agents now in Lexington selling the biography of the late James G. Blaine. The cool weather is no doubt all that prevents the people from taking to the woods.

If the members of the Legislature could hear how the people are talking, they would quit their monkey business over hoop skirts, &c., and get through with the business they were sent to Frankfort to look after.

THE BULLETIN is indebted to Mr. George W. Childs, of the Philadelphia Public Ledger, for a copy of the Public Ledger Almanac for 1893—the twenty-fourth annual issue of the almanac. It is a valuable book of reference—"a treasury of useful information." It is furnished free of cost to subscribers to Mr. Childs' paper.

THE LEGISLATURE.

Governor Brown Vetoes Two More Measures—Doings of the State Solons.

Governor Brown returned to the House his veto of the bill requiring the president and directors of incorporated burying grounds to make reports of the formal condition to stockholders. The bill contained an emergency clause but did not specify the emergency as required by the Constitution. The veto was sustained.

The House passed a bill providing for the appointment of special Judges in County Courts. An amendment to deduct their pay from the salary of the regular Judge was defeated.

A bill was passed amending Section 102, civil code of practice. It bars judgments in all actions where no answer has been filed or issue joined by defendant, but permits such judgment to be made provided sixty days have elapsed after a warning order and before the commencement of the term of court.

The Senate passed the House bill to confirm the validity of funding and refunding bonds of cities of the second class.

The bill establishing Justice Districts in each county was passed in the House. It is the measure incorrectly passed last fall.

The resolution to add two more commissioners to the World's Fair Board from this State came up yesterday. These two Commissioners are to serve without pay, and the proposition has been worked up by Professor Willbur Smith. Big opposition was manifested at once. Representative Bailey, of Carroll, went so far as to say that the project was created only to give notoriety to one or two kid glove gentlemen, who would be a burden to the rest of the Board. The advocates of the resolution claimed that the minor sections of Eastern Kentucky were not fairly represented.

While this debate was going on, another little veto was received from Governor Brown. It killed Mr. Hart's bill amending an act in relation to Poplar Plains, Fleming County. This veto was also sustained.

Mr. Bashaw, of Henry, introduced in the House a bill prohibiting railroad companies from employing minors as telegraph operators where trains orders are to be sent and received.

Mr. Peak, one of the oldest and most dignified members, sent up a new bill entitled: "An act to prevent the sale, loan or wearing of hoop skirts."

The bill practically re-enacting the old law relating to idiots and lunatics was called up. It had previously passed the Senate, and prohibits any allowance to idiots under eight years of age, or to any person who is occasionally insane. Mr. Bashaw offered an amendment making the age limit of idiots twelve years. The amendment was voted down and the bill passed without change.

Mr. Leavell introduced a bill authorizing County Courts to submit propositions for dividing or striking off territory to legal voters, and providing for the transfer of such territory.

CAPTAIN ANDREW MILLER.

A Former Citizen of Maysville, Father of Mrs. Robt. Bissett, Passes Away at Pittsburg.

Captain Andrew Miller, father of Mrs. Robert Bissett of this city, died suddenly last Saturday at his home in Pittsburg. He was stricken with paralysis a day or so before and never recovered consciousness.

Deceased was in the seventy-ninth year of his age. He was a native of Pittsburg but was a resident of Maysville for some time. While here he was engaged in business on East Second street, in a building that stood on the site of the warehouse now occupied by Frazer & Browning. Captain Miller is remembered by many of our older citizens. The Pittsburgh Dispatch, in speaking of his death, says: "He was a river captain for the first fifty years of his life, and took a prominent part on the river during the war. He owned and ran a number of packets between Pittsburg and Nashville. His first boat was the Mayduke. He then had the Nashville No. 1 and No. 2, and the Cumberland No. 1 and No. 2. He built the three boats called the Argosy, of which the Government bought two during the war. Soon after the war, and when the Oddfellows' Savings Bank was organized, he left the river to become its Vice President. On the death of President Lambin he was elected President. He was a director of both the Armenian Insurance Company and the Pittsburg Insurance Company. As an Oddfellow, he occupied a prominent position, being Treasurer of Mechanics Lodge No. 9 for a number of years and holding other offices in the order."

Mr. Miller held a number of offices under the city. He was Chairman of the Select Council for several terms, before his removal to Allegheny. He was President of the First Ward School Board, and also a member of the Board of Education. He was peculiarly successful in all his undertakings and amassed a considerable fortune."

Captain Miller's wife died five years ago. Six children besides Mrs. Bissett survive him.

A Valentine Tea.

On February 2nd a "Mozart Musical Club" was organized at the Visitation Academy, and the members have decided to give "a Valentine tea" on next Tuesday, February 14th, in the hall of the academy. Only those who receive invitations will be admitted, and unless the card of invitation is presented at the door admission will be refused. The entrance fee will be 25 cents. The proceeds will be used for the fitting up of a musical library. Hours from 2 to 5.

John Barrett & Son of Cincinnati have purchased the towboat Time from Pittsburg parties. They have also secured the Mary Houston recently damaged by the ice at Cincinnati.

"Kilkenny and the Rhine."

"A Combination Play," something new and novel to the stage, was produced here last night. "Kilkenny and the Rhine" is all the manager has praised it, if we can judge by the encores and rounds of applause it received. The scenes are laid in Ireland with a German in the plot. The play is a strong melo-drama, with songs, dances, funny sayings, strong situations and novel effects. J. E. Toole played Conrad Rosenvoninkelkens, with songs and dances, in a pleasing manner. Minnie Jarboe, as Elly O'Shane, reminds one of the girls of Waterford; she is certainly an ideal Bonny Irish Colleen; her singing captured the entire audience. The balance of the cast includes that sterling actor, W. H. Harvey, and the celebrated Irish character actor, James Ryan, and others.—The Chronicle, January 20.

This play will be the attraction at the opera house next Saturday night. Tickets on sale at Nelson's.

THE LATE JOHN PYLES.

The Bulletin's Desha Representative Tells of the Funeral Services.

The funeral of the late John Pyles took place from the church at Shannon Friday, Revs. G. N. Jolly, F. M. Tinder and R. H. Wightman conducting the services over the remains, which were interred in Shannon cemetery. The pall-bearers were Ben. J. Longnecker, Henry Thompson, Geo. W. Styles, R. B. Yancey, Wm. McClelland and B. F. Clift.

The funeral discourse, for the quick and not for the dead, by Rev. Wightman, was founded on this scripture: Hebrews: 9:27: "And it is appointed unto men once to die, but after this the judgment." All present were deeply impressed and no evidence was wanting to show that a good and useful citizen had passed away.

Of the Pyles family four brothers and two sisters survive. His immediate descendants are three sons and one daughter. The casket was covered with black cloth and bore a silver plate on which was engraved "Father."

At the conclusion of the service, and while his niece, Miss Nancy Bland, sang in restrained voice "Nearer My Home To-day," many moved slowly and sadly through the church and took a last look at him whom a majority knew and respected.

The large audience was composed of his neighbors, personal and business friends and relatives from Maysville, Mayslick, Sardis, Elizaville and Shannon. He was buried by the side of his wife and two children. The ministers at the altar represented three different denominations.

THE State Board of Valuation raised the assessment of whisky from \$8 to \$12 per barrel a few days ago and the liquor men started out to make a big kick, and have it put back to its old figure. A committee of them appeared before the Board Monday. The Board heard their statement on behalf of the distillers and then made a proposition that seemed to be a stunner. They told the committee that if they would produce in writing, and show that the average price per barrel at which the whisky was sold, as it came from the distilleries, and in bond, was such as to make \$12 a barrel an excessive taxable value, then they would reopen the subject. The committee left without making any response to this proposition.

MRS. WHITNEY BURIED.
Last Ceremony Over the Remains of the
Society Leader.

NEW YORK, Feb. 8.—The funeral of Mrs. William C. Whitney, wife of the ex-secretary of the navy, was held at St. Bartholomew's church yesterday. Friends of the family, together with the pallbearers, gathered at the residence and proceeded from there to the church.

The chancel of the church and the space around the altar was banked deep with palms and lilies of the valley. The reading desk and pulpit were lost in wreaths of white chrysanthemums and lilies, interspersed with splashes of roses and violets. The pulpit itself was festooned with white and crimson roses. The central piece in the mass of flowers bore the words, "Consecrated by God," in purple letters on white ground.

W. C. Whitney, with his sister-in-law, Mrs. Bingham, of Cleveland, leaning on his arm, came first, followed by Colonel Oliver Payne, his sisters, Mrs. Henry E. Dimock and Mrs. Charles F. Barney; her eldest daughter, Pauline, and the sons, Henry Payne and William Payne, together with Mrs. Cleveland, who was leaning on the arm of Don M. Dickinson. In the party were Mr. and Mrs. Stetson and Colonel and Mr. Daniel Lamont.

The coffin followed, a plain cedar casket, trimmed and interlaced with flowers and bearing an immense purple spray across it. The pallbearers accompanying it were Grover Cleveland, Cornelius Vanderbilt, George Peabody Wetmore, Hamilton McK. Twombly, E. Randolph Robinson, George G. Haven, George H. Bend, Edward A. Wicks, Thomas F. Cushing and Buchanan Winthrop.

Many wealthy persons were present, as were a large number of Tammany politicians.

At Woodlawn cemetery the body was placed in the family plot. The flowers that were used at the funeral were by orders of Mr. Whitney distributed among the various hospitals of the city. There were three wagon loads of them.

QUEENSLAND FLOOD.

It is the Greatest Disaster in the History of the Colony.

BRISBANE, Feb. 8.—This city continues to be completely isolated by the floods. The water is thirty feet deep in the principal streets of the city, and in the suburbs has covered buildings sixty feet high. Five hundred houses have been demolished.

Hundreds of families have lost their homes and have left in boats to seek the shelter on higher grounds. All gas and water pipes have been destroyed and the city is in darkness.

In the region about Wide Bay, Queensland, hundreds of houses have been demolished by the rushing waters and thousands of destitute people have taken refuge in the hills, without shelter and destitute of nearly all necessity.

It is reported that several mines at Gympie, in the Wide Bay district, are inundated, and that great damage has been done to mining operations.

The governor came to the city yesterday in a boat. He says that all towns between Brisbane and Ipswich are submerged. This is the greatest disaster in the history of the colony.

MORE MEXICAN GOLD.

Another Great Discovery. This Time in the State of Oaxaca.

OAXACA, Mex., Feb. 8.—Another great gold discovery has been made in this state, about one hundred miles south of here, and hundreds of prospectors are flocking to the new fields. The strike is situated near the route of the proposed extension of the Mexican Southern railroad, which was recently completed to this city from Pueblo. The building of this road has greatly stimulated the mining interests of the state of Oaxaca and a great many new camps have recently sprung into existence. The ore is richer and more easily mined than in any other section in the southern part of the republic. Scores of old mines which had been abandoned for a century or more are being opened up and worked with profitable results.

Wreck in a Tunnel.

PARKERSBURG, W. Va., Feb. 8.—The westbound fast line from Cincinnati to New York on the Baltimore and Ohio railroad, jumped the track just as tunnel No. 5 was reached Monday night. The engine and every car but the sleeper went off. The train was going forty miles an hour and dashed over the ties, scraping the sides of the tunnel until it emerged from the other side. The engineer, William Myers, was badly scalded and his fireman hurt. The track was blocked for twelve hours.

Snowstorm in Iowa.

MARSHALLTON, Ia., Feb. 8.—The most violent storm of the season prevailed here Monday. The mercury dropped fifty degrees in twelve hours. The snow is badly drifted, all railway traffic being greatly impeded, and business is practically suspended.

THE BEHRING SEA ARBITRATORS.

PARIS, Feb. 8.—The court of arbitration selected to settle the controversy between the United States and Great Britain relative to Behring sea will be constituted on Feb. 23 and will adjourn for a month. The Marquis Visconti Venosta, Italian arbitrator, and Judge Cram, of the supreme court of Christiania, arbitrator for Sweden and Norway, will not attend on the 23d inst. Voluminous documents relating to the controversy have been deposited in sealed boxes at the British embassy, and will not be opened until the court of arbitration is constituted.

Escaped a Horrible Fate.

SCIOTOVILLE, O., Feb. 8.—Richard Eastwood, engineer at W. K. Thompson's sawmill of this place, narrowly escaped a horrible fate while working about the machinery. In some way his foot became entangled in a belt. He was jerked from his feet and rapidly dragged toward the pulleys, where he would have been torn to pieces. A fellow-workman happened to be close at hand, however, and pulled him from his perilous position just in time. He escaped with a badly fractured ankle.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and relieves feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulence. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am aware. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHLOR,
Conway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
